Survey and Feedback: Blackboard Mobile Learn

“I use my device a lot more....It's been much better, as I don't have to have a lot of paper with me.”

“I liked the 'favourites'; which meant I could access the relevant modules for this semester.”

Survey and Feedback: Qwizdom - QVR

**“I would definitely use QVR again
in the future”**

**“The system is really simple to use.
I can carry less handsets to the classes
from now.”**

Making More Mobile - a new project in Information Services

Information Services has been successful in a bid for funding from [JISC RSC Wales](#) through the [Technology for Learning Small Grant scheme](#).

The funding will be used to run an exciting new project called Making More Mobile. The project will investigate the mobile versions of two popular e-learning tools - **Blackboard** and **Qwizdom** - and will allow us to purchase a number of mobile licences for each one. The project will run during Semester 2 and we will be contacting staff and students shortly to recruit volunteers to take part.

- **Project document** - a copy of the bid document submitted to JISC RSC Wales.
- You can follow the progress of the project on the [Nexus blog](#).
- Look at the **resources** tagged on Delicious as part of the desk research strand of the project.
