» Keeping Learners Safe Online – 5th November

This one hour webinar will feature good practice case studies from three further education and specialist colleges that demonstrate how they have improved the safety of learners online. Featuring Peterborough Regional College.

Delegates will have an opportunity to ask questions and share experiences in the Q&A panel session - this will include the case study presenters and representatives from our advisory services.

» New mobile app to benefit student hairdressers

Hairdressing students and their lecturers will now be able to access Jisc's pioneering Hairdressing Training videos any time, anywhere through their mobile.

» E-Learning Case Studies

Southend Adult Community College

The introduction of Moodle has given students access to course materials, induction materials and course resources. The tutors no longer have to carry course portfolios, thus saving time and printing costs. The tutors have improved their ILT skills and confidence through using Moodle and through developing online course materials.
